

Bártolo
et al

VIRTUAL MODELLING AND RAPID MANUFACTURING presents essential research in the area of Virtual and Rapid Prototyping. It contains reviewed papers that were presented at the 2nd International Conference on Advanced Research in Virtual and Rapid Prototyping, held at the School of Technology and Management of the Polytechnic Institute of Leiria, Portugal, from September 28 to October 1, 2005. The volume covers a wide range of topical subjects, such as medical imaging, reverse engineering, virtual reality and prototyping, biomanufacturing and tissue engineering, advanced rapid prototyping technologies and micro-fabrication, biomimetics and materials, and concurrent engineering.

VIRTUAL MODELLING AND RAPID MANUFACTURING is intended for engineers, designers and manufacturers who are active in the areas of mechanical, industrial and (bio)medical engineering.

About the Editor

PAULO BÁRTOLO is Professor of Advanced Manufacturing Processes at the Polytechnic Institute of Leiria (IPL), Portugal, and Head of the Mechanical Engineering Department at the School of Technology and Management of IPL. He is co-Director of the Postgraduate Research Centre at IPL, Fellow of the Institute of Polymers and Composites at the University of Minho (Portugal), Advisor of the Portuguese Agency for the Development and Innovation and President of the Portuguese Rapid Prototyping Association.

Paulo Bártolo is Editor-in-Chief of the journal *Virtual & Physical Prototyping*, which is published by Taylor & Francis (ISSN 1745-2759).
